

Learned to live with it? Read this ad and learn how to rid yourself of pain.

If you suffer from the following conditions...

- Sciatica
- Disc herniations
- Lower back pain
- Numbness in the legs
- Radiating hip pain

...there may be hope. Now, a local doctor has what may be the most important treatment in helping these conditions. No matter where you are with back pain, whether you're having unrelenting sciatic pain and facing surgery or you just injured it yesterday, a treatment called low level laser therapy may be the answer for you.

Are These Healing Lasers Safe?

Laser therapy has been tested for 40 years, had over 2000 papers published on it and has been shown to aid in damaged tissue regeneration, decrease inflammation, relieve pain and boost the immune system. Before the FDA would clear Laser Therapy for human use, they wanted to see proof that it worked. This led to two landmark studies. The first study showed that patients who had Laser Therapy had 53% better improvement than those who had a placebo. The second study showed patients who used the Laser Therapy had less pain and more range of motion days after treatment. If Laser Therapy helps these patients, it can help you too.

Could This Non-Invasive Treatment Eliminate Your Back and Sciatic Pain?

My name is Dr. Margaret Mertens, owner of Anew Health. I understand what it feels like to live in pain because we see it every day. We've seen hundreds of people with back pain, numbness, and sciatica leave the office pain free. This is why, for the **First 25 Callers Only**, we're running a very special offer where you can find out if you are a candidate for Laser Therapy.

How Much Does It Cost?

For the First 25 Callers Only, \$97 will get you all the services I normally charge new patients \$450 for! What does this offer include? Take a look:

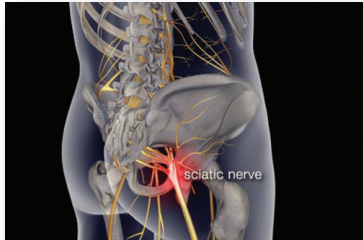

- An in-depth consultation about your health and well being where I will listen...really listen...to the details of your case.
- A complete neuromuscular and neurological exam.
- Two treatments demonstrations
- A thorough analysis of your exam so we can start mapping out your plan to being pain free.

Be one of the first 25 Callers and you can get everything we've listed here for only \$97.

Have you tried just about everything for your sciatic pain?

Have you been on pain pills or even 'advanced' to prescription Vicodin, Soma or some other muscle relaxer? The real problem is while you make it through the day all "numbed up", you are likely making your problem even worse... without knowing it.

The normal price for this type of evaluation is \$450, so you're saving a

considerable amount by taking me up on this offer. Treatments are not expensive, especially when compared to back surgery or physical therapy.

Call **715-384-9064** now and we can get you scheduled for your consultation and exam as soon as there's an opening. Come see us and you'll get to see how gentle this treatment will be on your back and leg. You may be back to having fun in just a matter of days. When you call, tell the receptionist you'd like to come in for the Power of Laser Evaluation so we can make sure you receive proper credit for this special offer.

Sincerely,

Margaret Mertens, D.C.

Federal and Medicare Restrictions Apply.

P.S. Why suffer for years in misery? That's no way to live, not when there could be an easy solution to your problem.

Here's What One of Our Patients Had to Say...

"I came to Anew Health for terrible neck and shoulder pain, also numbness in my right arm. I had been just putting up with it for so long, but it came to the point where I couldn't take it anymore.

Of course after a couple of years it became increasingly worse, working, sleeping, walking, especially when I first got up in the morning, everything ached.

I would stretch every morning before work which did help me through the day, I would use heat rub and heating pad all just temporary relief. I went to physical therapy but I was told I had arthritis.

The staff of Anew Health were just wonderful. They always ask questions about my pain, where it is everything, the exercises and adjustments have relieved so much. I feel so much better than I did before I started at Anew Health.

Dr. Mertens and all of the staff are so knowledgeable and explain everything that is happening with whatever pain you are having and why it's happening. I'm so impressed by everything and everyone at Anew Health.

I would recommend anyone with chronic pain and discomfort that have no explanation to try Anew Health and discover what they can do for you!"

- Teresa M
